Mistakes that I have found are:

1. text = One reader pointed out that the President watched the Americans in the embassy when they took them hostage.
  - Here 'When' is denoted as Adverb, it should be a conjunction.  
(when when ADV WRB PronType=Int 16 advmod 16:advmod)
2. text = It does seem that Iranians frequently make statements and then hide behind lack of proof.
  - Here Iranians is described as a Pronoun, it should be a noun.
